Philosophy on Student Organizations

A Student Organization is an association of Ohio State students created for any educational purpose that supports the vision and goals of the University.

Student Organizations serve as a medium for academic discourse, personal growth, leadership development, intercultural understanding, community service, and lasting friendships.
Relation to the University

Student organizations are not official legal entities of the university

Student organization advisors serve as one point of connection between the organization and the university

Advisor and Student Organization Agreement

Student organization advisors are integral to the success of student leaders, members and the overall organization. Any faculty or A&P staff may serve as the primary advisor for a student organization. The primary advisor is listed in the online organization directory and is responsible for completing annual registration renewal requirements. CCS staff, graduate students, alumni, community members or other non-university employees may serve as co-advisors.

Advisors serve as a connection between student organizations and the university. With the exception of key registration requirements, the advisor’s role is negotiable with the student organization. A review of, and mutual agreement on, the advisor’s role should take place annually between the student organization leaders/members and the advisor. Below are some points to discuss together:

1. **Attend organization meetings and events** (How many meetings will the advisor attend per semester? Does the student leader expect the advisor to be at specific events and meetings? Are there particular time constraints that the advisor has that should be taken into account?)
Framework Outcomes for the Advisor

- Advisor Partnerships
- Leadership Transitions
- Affinity with the University
Student Org Advising Potential
Student Org Advising Strategies

How have you...

• Negotiated your advisor role?
• Fostered in Partnerships, Leadership Transitions, or Affinity with the University?
• Offered advising and support, mentoring, and/or intentional faculty/staff-student interactions?
• Other ideas?
