- Create, practice and perform cross culture music and drama.
- Give everybody the chance to be a leading actress in his or her own life.

C. Concept:

### **-Attitude:**

**Theory:** Dance is the art of the soul. A person with or without skill can do good dance if he has passion inside and wants to express it to the world. The priority is our journey of the heart when we are dancing. It does not matter that we have no skill and no experience before. What matters is that we will begin from now on to learn and create.

### **Application:**

1. Evaluate the performance of a group member not based on her or his skill of dancing but how passionate and devoted to our training.
2. We should offer and participate in training for basic dancing skills regularly.

**Leading role:**

**Theory:** Everybody should have and grasp the chance to be a hero or heroine. We need to find the field which we are most interested in and best at. We all are the leaders in our fields and learn from each other to make the world a better place.

**Application:** Every week, someone should oversee a project.

**Culture:**

**Theory:** Dance is more culture-based than the movement of the body. When we know the story behind dancing, we can enjoy the emotional journey which we may or may not ever experience.

1. Explore the beauty of Chinese dance and the culture behind it
2. Explore the similarities and differences between Chinese dance and other dances and the cultural reasons behind them.
3. Participate in activities with different culture exhibitions.
4. Hold culture events for Traditional and Model China every year.

**Application:** Every time we learn some dance, we should not only learn the movement, but also the culture and story behind it. We need a dance discussion workshop.

**Creativity:**

**Theory:** We always believe that communicating between two different things will create the spark of truth. Diversity is like different colors of flowers in the spring and various shapes of leaves in the summer.

1. Create new kinds of dance out of diverse Chinese dances.

2. Create cross-cultural dance.
